## PRINTING INSTRUCTIONS FOR POLYESTER WICKING FABRICS

Due to the nature of 100% polyester performance fabrics, special care must be taken throughout the printing process. Here are some tips to effectively decorate our performance products.

- Garment temperature must not exceed 320°F or 160°C. Exceeding this temperature will cause the fabric to shrink, become wavy or cause dye migration.
- Dryer temperature and belt speeds must be changed accordingly for polyester fabric.
- If flashing these garments, do not exceed 1-2 seconds. Anything longer may damage the fabric as stated above.
- **Screen Printing:** These garments require the use of poly inks that cures at a lower temperature. A Dyno Grey base blocker on all colours and a second white base blocker on all dark colours are recommended. Please consult your ink supplier for more information.
- Polyester requires a longer cooling time than cotton. Avoid overlap of garments and screen-print/heat transfer until the garments are cooled. Failure to cool the fabric prior to stacking into a printer's fold may cause the fabric and applied ink to stick together.
- **Heat Transfers:** Poly mark heat transfers need to be created with an anti-migration layer in the design. This process can only be done on white or very light colour shirts. Inks used in printing paper design needs to be darker than the base fabric or colour will migrate with the fabric colour resulting in a bleeding effect.
- **Sublimation Printing:** As noted for the poly mark heat transfers, this process can only be done on white or very light colour shirts. Inks used in printing paper design needs to be darker than the base fabric or colour will migrate with the fabric colour resulting in a bleeding effect.
- If you heat press these garments, you must adjust the time, temperature and pressure. Failure to do so may damage the fabric as stated above.
- A test sample run is recommended, especially if you have a large order or if your printer does not specialize in printing on performance fabrics.

Comfort waistband with drawstring

Tonal "ATC" logo embroidery  
on bottom back of left leg

Double-needle hem with  
side zippers

### Available Colours and PMS Colours

Textile fabric colours are subject to dye lot variation and will not be exact match to print pantone reference

## THE AUTHENTIC T-SHIRT COMPANY® PTech Fleece Pant - F223

### Product Features:

- 12-oz, 100% double knit polyester fleece
- Comfort waistband with drawstring
- Front pockets
- Back welt pocket
- Double-needle hem with side leg zippers
- Coil YKK zippers with "ATC" auto-lock zipper pull
- Reinforced topstitching throughout
- Tonal tipped drawcord at inside waistband
- "ATC" locker loop waist label

### Adult sizes XS-4XL

Corresponding styles:

PTech Hooded Jacket (Adult/Ladies'/Girls')

F221/L221/G221

PTech Hooded Pullover (Adult/Youth) - F220/Y220

PTech Track Jacket - F222

PTech Pant (Ladies'/Youth) - L223/Y224

### Fabric Detail:

### Smart Uses:

Soft on the inside, nothing but class on the outside, let its double-knit construction wick the moisture and your worries away!

- Fitness gyms/clubs
- Gift giving
- Sports teams & events
- Coaches/athletes
- Donations/door prizes
- And much more!
